## Dr. Orcan Yüksel

studied dentistry at Johann Wolfgang Goethe University in Frankfurt and the University of Istanbul, where he graduated in 1987 and subsequently received his doctoral degree in Frankfurt. Since 1993 Dr. Yüksel has been operating his own dental practice and implantological training facilities in Frankfurt, specializing in dental aesthetics and oral implantology. He is certified as an implantologist and implantological trainer by the European Association of Dental Implantologists (BDIZ-EDI), is a certified ICOI (USA) Diplomate and is a member of several German dental societies (DGI, BDO, DGZMK, DGZI, DGP). He is member of the editorial team of the Turkish edition of Quintessence and has held numerous international presentations on dental implantology and aesthetics since 1997. Dr Yüksel belongs to exclusive group of international lecturers „Omega Group“.

## Dr. Krzysztof Chmielewski

President of Polish Academy of Esthetic Dentistry. Graduated 1993 Medical University in Gdansk. From 1996 runs his own private practice focused on esthetic treatment and implantology.

“Master of Science in Oral Implantology” at W.Goethe University in Frankfurt am Main. Student of J.Kois in Seattle. Gives lectures during Curriculum of Implantology Program at W.Goethe University in Frankfurt am Main. International speaker in the field of implantology, esthetic treatment and dental

# Bone-Fixation-Set

## Bone-Fixation-Set –

The new USTOMED Bone Block Set is available on the German and International market as well.

The new developed screws from a new-type are available in titanium and in an implant steel in different diameters. Thanks to the special geometry of the screw head, they are perfectly suited for even the smallest bone grafts. The cross recess heads, milled to perfection, and the matching, self-fixating pick-up bit guarantee an absolutely secure hold of the screw with optimal force transmission.

Fast and easy pick-up of the self-retaining screws allows users to work efficiently.
